

Continental Oak Faded Silvergrey Natural Oil

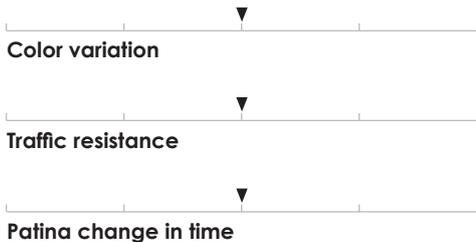

Pre-finished by hand, this Oak has a pure blended beige-grey patina. We bleach and oil it, which gives the patina long-lasting protection against yellowing. More intense light grey or beige tones can be achieved, depending on the choice of maintenance product. This finish works well in plank and parquet patterns for floors and walls.

|---------------------------------|--|
| Species | Continental (European) Oak |
| Finish* | Natural Oil |
| Origin | European Oak (Quercus Robur) mainly over 80 years old. Grown in responsibly managed central European forests. |
| Maintenance | This finish can be cleaned regularly using our Natural or Whitewash Oil Soap. These feed and strengthen the surface over time and allow you to adjust the patina to your requirements. |
| Spot repair and Refinish | Professional maintenance with our Maintenance Oil will make this finish richer and protect it over time. Spot repairs are possible with our touch-up kit. |

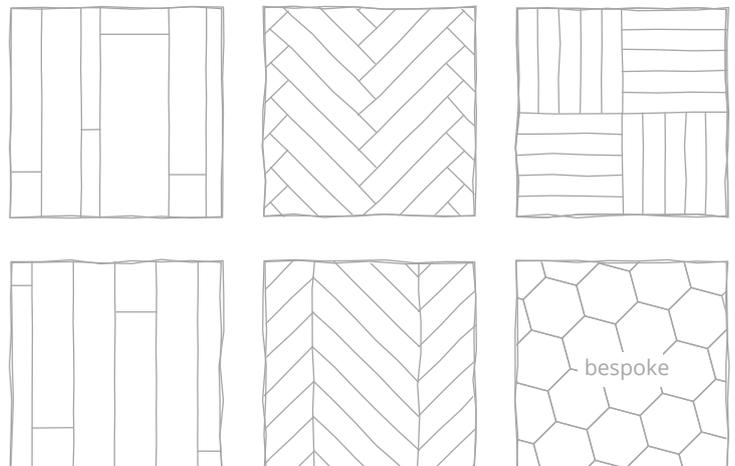

Structure**

Engineered: 19.5 +/- 0.5 mm, top layer 4.5 +/- 0.5 mm

Recommended patterns

*) Whilst our sampling and photography endeavours to show grain and colour as natural as possible, a sample or photo are never an exact representation of an entire floor. Wood being a natural material, variation in colour and grain exists, floors may change appearance over time through exposure to light, wear and tear and maintenance.

**) Prefinishing of solid floors may be subject to more strict recommendations for limited board dimensions and climate control. Read further on the next page.
